**DETAILED ACTION*****Claim Rejections - 35 USC § 102***

In the previous office action (paper no. 6; April 11, 2003), the examiner stated that "weight" was inherent in the prior art "seesaw-type mass member." The applicant amended the claim 1 to include "distinct" weight members "carried" by the seesaw-type mass member. Therefore, this new ground of rejection addresses applicant's newly amended claim 1.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Haselton (2,800,827). The patent to Haselton shows a seesaw-type mass member (36,34) having distinct (i.e., easily observable) weights (30, 32; see col. 2, lines 15 and 23) which are carried by arms 34 and 36. The "lifter" of Haselton is functionally equivalent to applicant's "follower" (col. 2, line 6). As seen in figure 1, the mass member, "pops up" higher than the key when the keys are depressed. The distance between 30 and pivot 27 is shorter than the distance between 32 and pivot 27 (col. 2, paragraph 4).

***Allowable Subject Matter***

Claims 2-8 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Regarding claim 2, the prior art does not disclose inserting weights wherein each combination is set separately from each other. Regarding claim 4, the prior art does not show a mass member with plural insertable weights having plural combinations of weights. Nor does the prior art show a plural weight mass member having a stopper for setting pivotal movement. Regarding claims 3 and 6 – 8, reasons for the indication of allowable subject matter was stated in the previous office action (paper no. 6; April 11, 2003).

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2837

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
